

Processed Evidence Files

This directory contains web content that has been fetched and converted to markdown for use in the FTA modernisation research project.

Directory Structure

- **government/** - Official government sources (DFAT, trade ministries, etc.)
- **academic/** - Academic research papers and institutional reports
- **industry/** - Business and industry association reports
- **statistics/** - Statistical data and databases

File Naming Convention

Files should be named using the pattern: `YYYY-MM-DD_source_topic.txt`

Example: `2025-01-31_dfat_aanzfta_upgrade.txt`

Metadata Requirements

Each file must begin with a metadata header:

```
# Source Metadata
Original URL: [full URL]
Retrieved: [date]
Source Type: [Government/Academic/Industry/NGO]
Relevance: [specific deliverable and section]
Key Topics: [comma-separated list]
---
```

Quality Standards

1. Preserve all data tables and statistics
2. Maintain original citations and references
3. Remove navigation, advertisements, and unrelated content
4. Convert HTML formatting to clean markdown
5. Ensure all links are preserved as markdown links

Usage

These files serve as the evidence base for the research deliverables. They should be:

- Cited properly in deliverable documents
- Cross-referenced when claims appear in multiple sources

- Updated when newer versions become available (mark old versions as superseded)
- UNSW Centre for Sustainable Development Reform on Aug 1, 2025.
